

Our business is backed by electricity generated from renewable sources

We certify that **University of Exeter** has 100% of its electricity generated in the UK from clean renewable sources, wind, solar and/or hydro.

April 2023 – March 2024

A handwritten signature in black ink that reads 'Matt Nunn'.

Matt Nunn
Director of EDF Business Solutions

Clean Renewable

All source certification meets GHG Protocol Scope 2 Guidance Quality Criteria. This is not a REGO certificate. REGO certificates are held by energy suppliers for Fuel Mix Disclosure. The zero carbon electricity that we buy for Zero Carbon or Renewable tariffs and products is supplied into the National Grid. Customers receive that electricity through the National Grid, not directly from zero carbon generators.
